

TASK FORCE ON COMBATING HUMAN TRAFFICKING

NATIONAL ACTION PLAN
AGAINST HUMAN TRAFFICKING
covering the period from 2009-2011
prepared by the Republic of Austria

coordinated by the
Federal Ministry for European and International Affairs
Vienna, 26 May 2009

Introduction

Human trafficking represents a grave violation of human rights and human dignity. Human trafficking is increasingly developing into a global problem that can only be tackled at the global level and in an international context. According to a recent study by the International Labour Organisation (ILO)¹ 2.4 million people fall victim to human trafficking annually² with children making up a major share of those trafficked. Human trafficking has become one of the most profitable forms of organised crime. According to the ILO study, criminal networks generate revenues of 32 billion dollars per year with the “human being as a commodity”.

Women and children are particularly affected by human trafficking. According to estimates by the United Nations Children’s Fund (UNICEF) 1.2 million children fall victim to human trafficking every year.

Because of its geographical location at the centre of Europe, Austria is affected by human trafficking both as a transit country and target destination. Experience has shown that the most frequent phenomena of human trafficking in Austria include sexual exploitation, slave-like situations of domestic servants and child trafficking.

Austria is a state party to all relevant international legal instruments on combating human trafficking and strives to implement the relevant

² Terminology: The term “victims of human trafficking” used in the NAP 2009-2011 shall mean people who are victims in a concrete context, without denying them their self-competence and resources. The term covers all forms of human trafficking and therefore also includes child trafficking. The term “victims of child trafficking” is used exclusively to describe and refer to actions that are specifically directed at children, i.e. persons under the age of eighteen.

international obligations by taking concrete action. By ratifying the Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children, supplementing the United Nations Convention against Transnational Organized Crime in autumn 2005 (Federal Law Gazette III No. 220/2005), Austria undertook to take all necessary steps in order to combat this crime. Austria was the first EU Member State to ratify the Council of Europe Convention on Action against Trafficking in Human Beings in October 2006.

In November 2004, the Task Force on Human Trafficking (TF-HT) was set up by a Ministerial Council Resolution (cf. item no. 22 of the Council Resolution Minutes No. 70 of 9 November 2004). It is headed by the Federal Ministry for European and International Affairs (FMEIA) and charged with coordinating and intensifying the measures taken by Austria in combating this crime. The regular meetings of the Task Force on Human Trafficking are chaired by the FMEIA.

The Task Force on Human Trafficking is composed of representatives of all competent ministries, including outsourced agencies, the federal provinces and non-governmental organisations. Regular contacts and intensive cooperation within the Task Force promote mutual trust and lay a sound foundation for concrete and effective progress.

Close cooperation with the federal provinces at all levels (prevention, victim protection, criminal prosecution and international cooperation) plays an important role in this context. As a result of this cooperation, last year saw the appointment of “contact persons for matters related to human trafficking” in every federal province, bringing the total number of such contact persons in Austria to thirteen.

The First Austrian National Action Plan Against Human Trafficking was

adopted by the Council of Ministers in March 2007 (cf. item no. 24 of the Council Resolution Minutes No. 8 of 28 March 2007).

The activities of the TF-HT and all measures taken by Austria to combat human trafficking are presented in the First Austrian Report on Combating Human Trafficking (covering the period from March 2007 – February 2009). This report was submitted to the Council of Ministers on 10 March 2009 (cf. item no. 13 of the Council Resolution Minutes No. 10 of 10 March 2009).

A first important measure set forth in the National Action Plan was the appointment of Director-General Ambassador Dr. Elisabeth Tichy-Fisslberger to be the First Austrian National Coordinator on Combating Human Trafficking (cf. item no. 13 of the Council Resolution Minutes No. 10 of 10 March 2009). The appointment of the National Coordinator has contributed to enhancing both the external visibility and general awareness of the highly efficient work performed by the Task Force on Human Trafficking. As set out in the declaration of the Council of Ministers (Ministerratsvortrag) on the establishment of the Task Force on Human Trafficking, existing structures were thus used in the best possible manner without creating new administrative entities, which is also in the interest of a lean and cost-efficient administration.

Two working groups were set up within the TF-HT, one dealing with the topic of “Child Trafficking” and the other with “Prostitution”:

- The Working Group on Child Trafficking is headed by the Federal Ministry of Economy, Family and Youth and is composed of experts of the competent ministries, the federal provinces and a number of non-governmental organisations. The present NAP 2009-2011 provides for the continuation of the activities performed by this wor-

king group. Some of the actions outlined in the NAP 2009-2011 explicitly relate to combating child trafficking. The first report prepared by the Working Group on Child Trafficking (covering the period from March 2007 to February 2009) was also submitted to the Council of Ministers on 10 March 2009 (cf. item no. 13 of the Council Resolution Minutes No. 10 of 10 March 2009).

- The Working Group on Prostitution, headed by the Women’s Directorate at the Federal Chancellery (BKA-Frauensektion), was set up in June 2007. Experts from all competent ministries, the federal provinces, the specific non-governmental organisations active in this field, the Austrian Federal Economic Chamber and the Austrian Chamber of Labour contributed to this working group. The Working Group on Prostitution completed its activities in June 2008 by preparing a final progress report on “Prostitution in Austria – Legal Situation, Effects, Recommendations” (“Prostitution in Österreich – Rechtslage, Auswirkungen, Empfehlungen”. This report was also submitted to the Council of Ministers on 10 March 2009 (cf. item no. 13 of the Council Resolution Minutes No. 10 of 10 March 2009). The present NAP 2009-2011 now provides for a continuation of this working group under a Working Group on Prostitution – the Provinces’ Scope of Responsibility (Arbeitsgruppe-Länderkompetenzen “Prostitution”) to be set up in order to enable a follow-up on the possibilities outlined in the progress report that fall within the federal provinces’ scope of responsibility and competence.

The Second Austrian National Action Plan on Human Trafficking covering the period from 2009-2011 again reflects the comprehensive approach taken by Austria in combating human trafficking. It is characterised inter alia by nation-wide coordination, prevention, victim protecti-

on, criminal prosecution, and international cooperation.

The NAP-HT 2009-2011 consists of nine chapters in total. The individual actions are objectives that are to be achieved in line with the Austrian legislation in force. Chapter I is entitled “Coordination” and deals with activities aimed at further developing the TF-HT and strengthening cooperation with the federal provinces. The actions included in Chapter II on “Prevention” are geared towards raising Austrian public awareness of the issue of human trafficking. The relevant activities include both training measures and awareness-raising events that attract public attention. Chapter III contains actions that contribute to identifying potential victims of human trafficking, because identification is considered one of the major challenges in combating human trafficking. Chapter IV deals with “Protection and Support to Victims of Human Trafficking”. This chapter focuses specifically on care and support to children, i.e., persons under the age of eighteen³. The amendment to the Settlement and Residence Act (Niederlassungs- und Aufenthaltsgesetz), which was adopted only recently, aims to contribute to improving the victims’ situation. The actions outlined in Chapter V “Criminal Prosecution” and Chapter VI “Compensation” aim inter alia to promote enhanced cooperation between government agencies and non-governmental organisations. The topic of victim protection continues to play a central role in the NAP 2009-2011 as well. Chapter VII discusses the pivotal importance that representatives of the TF-HT attribute to activities aimed at improving data collection, as sound data material is considered an essential prerequisite in combating human trafficking. Chapter VIII “International Cooperation” deals with areas in which activities and projects aimed at combating human trafficking are launched abroad. The priorities set in this context of commitment at the interna-

³ The topics discussed under this chapter also include the Concluding Observations of the Committee on the Rights of the Child (September/October 2008)

tional level include networking among players, building the relevant capabilities among governmental and non-governmental institutions, and focusing on specific groups of society, such as women and children. Chapter IX “Evaluation/Monitoring” reviews the measures and actions Austria has taken so far in combating human trafficking.

In line with the United Nations’ recommendations, governments play a central role in preparing National Action Plans, as they are primarily responsible for the implementation of such plans.

Thus the competent federal ministries holding the main responsibility and/or within whose scope of competence or responsibility the implementation of the relevant actions fall, are explicitly specified in the NAP-HT 2009-2011.

In this context, the role played by the Austrian Development Agency/ Austrian Development Cooperation and Cooperation with Eastern Europe (ADA/ADC) differs from that assumed by the Austrian federal ministries since it is an outsourced agency which is mandated by the State of Austria to implement international projects aimed at combating human trafficking. Under item “VIII International Cooperation” it is thus named as the body holding primary responsibility in this regard.

The representatives of civil society and non-governmental organisations (NGOs) also play an essential role in preparing and implementing the NAP-HT 2009-2011. In Austria, NGOs are indispensable partners in the context of protection of victims of human trafficking and with respect to preventive measures. Without their commitment and active involvement the Austrian federal government would not be able to fulfil these important tasks in line with international requirements.

In Austria numerous NGOs are pro-actively involved in combating human trafficking. The NGO LEFÖ-IBF (Intervention Centre for Migrant Women Affected by Human Trafficking) enjoys a special position in this regard. In contrast to other NGOs it acts on the basis of a government mandate granted under Art. 25 of the Austrian Security Police Act, which means that a legal structure in the form of a “partnership” exists between two government agencies (the Federal Ministry of the Interior and the Women’s Directorate at the Federal Chancellery) and LEFÖ-IBF. For this reason the National Action Plan includes some actions for which LEFÖ-IBF is named as the competent organisation holding responsibility for their implementation. Other players, including the NGO ECPAT Austria (End Child Prostitution, Child Pornography and Trafficking of Children for Sexual Purposes) and the research institution Ludwig Boltzmann Institute of Human Rights, participate regularly in the meetings held by the Task Force on Human Trafficking and are thus important partners in the preparation and implementation of the NAP-HT 2009-2011. In contrast to LEFÖ-IBF, however, they do not explicitly act on the basis of a government mandate and thus cannot be named as being primarily responsible for the implementation of actions.

In view of the current difficult economic environment and the fact that the amount of budget funding for the implementation of the NAP-HT 2009-2011 cannot yet be foreseen, it must be pointed out that measures having financial implications are in principle subject to the availability of funds.
